# Seradex OrderStream
## Technical Release Notes
## January 2015

**GenericHist.dll**

| | | | |
|---|---|---|---|
| 6.4.12 | 01/30/2015 | I1501025 | An adjustment has been made to the smart finder form ensuring that Tools' export functionality will no longer try to call excel save method. |

**InventoryAdjustment.dll**

| | | | |
|---|---|---|---|
| 6.4.67 | 02/04/2015 | I1501050 | Corrected the dynamic query that processes the information from the Excel Physical Count Sheet when trying to adjust multi-dimensional inventory (width-length items). |

**InventoryTransfer.dll**

| | | | |
|---|---|---|---|
| 6.4.61 | 01/30/2015 | I1501012 | When deleting lines from a transfer created by work order, deletion of the last line related to the work order will now update the work orders quantity transferred to date. |

**MatReq.dll**

| | | | |
|---|---|---|---|
| 6.4.82 | 01/30/2015 | I1501216 | Adding a Mat Req item to an existing PO will no longer report PONo as an invalid column. |

**PurchaseOrder.dll**

| | | | |
|---|---|---|---|
| 6.4.81 | 01/30/2015 | I1501261 | Purchase order will no longer attempt to access the VendorPriceList.xls file when AdvancedPO is not activated in OrderStream. |

**RptPurchasing.dll**

| | | | |
|---|---|---|---|
| 6.4.21 | 01/30/2015 | I1404201 | Added Support for the New SQL server based master Database for user profiles and storage of the Computer names for Auto Updater |

**Seradex.Win.Purchasing.dll**

| | | | |
|---|---|---|---|
| 6.4.1 | 02/05/2015 | I1501257 | Corrected issue running Custom MRP reports from the purchasing MRP |

**Seradex.Win.Scheduling.dll**

| | | | |
|---|---|---|---|
| 6.4.24 | 01/30/2015 | I1411173 | Modified DBR Scheduling to ignore a drop action used to change a date when the drop location is not one of the operation rows (e.g. a filter row, a summry row) |

**Seradex.Win.Scheduling.Finite.dll**

| 6.4.1 | 01/30/2015 | I1411173 | Modified Finite Scheduling to ignore a drop action used to change a date when the drop location is not one of the operation rows (e.g. a filter row, a summry row) |

**ServiceOrder.dll**

| 6.4.47 | 02/04/2015 | I1411015 | The Job Costing field on the Service Order form will now auto populate with the selected invoice's job costing number. |

**sxUserDefineds.ocx**

| 6.4.28 | 02/04/2015 | I1501281 | No longer creates data in the AdditionalInfo table for modules that do not have any valid user controls setup. |

**WOGenerator.dll**

| 6.4.21 | 01/30/2015 | I1501033 | An adjustment has been made to the Work Order Generation form ensuring that the header filters will remain when running the Tools' Generate Work Order function. |
